

## Plains Pipelines: Operational Update

To: Plains Pipeline Shippers and Producers  
Date: April 3, 2019  
Subject: Plains Pipeline Operational Notification Implementation

---

Please be advised that effective April 3, 2019, Plains Midstream Canada ULC (Plains) will be implementing Petrotranz's Operational Notification tool to communicate all operational updates to Producers and Shippers.

Petrotranz's Operational Notification tool allows Stakeholders to self-subscribe and access communications in one standardized, secure location.

Please see the attachment for instructions on how to subscribe to Operational Notifications. If you or your company does not have access to Petrotranz, please contact Petrotranz Support at 403.457.1470 or [support@petrotranz.com](mailto:support@petrotranz.com).

Plains will continue to e-mail out all operational updates (in parallel with posting them via Petrotranz) until July 1, 2019 at which point all communications will only be posted through Petrotranz.

If you have any further questions, please contact the undersigned.

Elizabeth Hobday  
Senior Manager, Pipelines Scheduling

Cell 403.826.3990

Plains Midstream Canada ULC & affiliates (Plains) provides outage notices to its Producers & Shippers in an effort to assist them in managing their business. These notices are intended solely for Plains Producers & Shippers and are not intended for redistribution, public consumption or use by media and as such are not official. Plains will not confirm or update any notice information to outside parties not intended to receive these notices. Plains reserves the right to discontinue these updates without notice.
