Petrotranz

Producer Operator Portal Data Sheet

Producer Management Delivered Through Petrotranz Crude Oil Transportation System

Petrotranz Inc.'s Crude Oil Transportation System (COTS) is a secure, easy-to-use, web-based communication and collaboration platform that streamlines the manual processes and documentation required in the transportation of crude oil from wellhead to market.
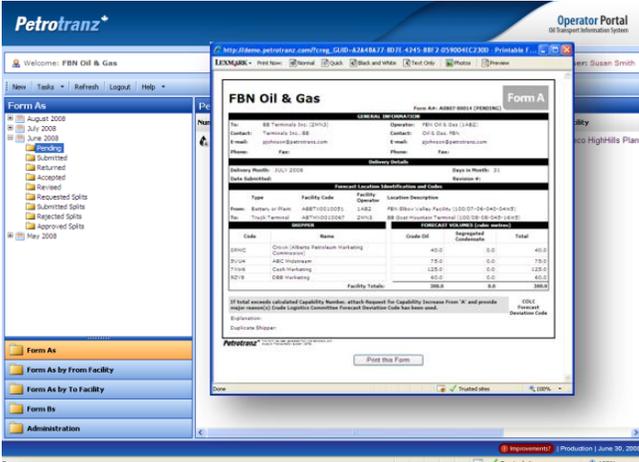

Petrotranz COTS provides Producers, Facility Operators (pipelines, truck terminals, cleaning plants) and Marketers the ability to forecast shipping volumes, capture production information, and reconcile delivered quantities to complete and submit delivery forecasts online each month. Petrotranz COTS allows for the consolidation of Form A submissions to produce Form C's either within the system itself or through import/export procedures to external systems.

Business Value ✓

Create & Manage Form A's on-line	YES
Template Form A's for easy month-to-month use	YES
Auto Generate Form B's	YES
Submit Shipper Splits on-line	YES
Reduce data entry time	YES
Improve data analysis and integrity	YES

Improve Communication & Collaboration with Facility Operators	YES
Import/Export to external systems	YES
Maintain Historical Information on all events	YES
Secure, easy to use Web-based functionality	YES

Benefits

These are just some of the Producer Operator benefits Petrotranz Crude Oil Transportation System provides:

● **Create & Manage Form A's electronically**
Producer Operators are able to manage the entire Form A life-cycle (create, submit, revise) electronically.

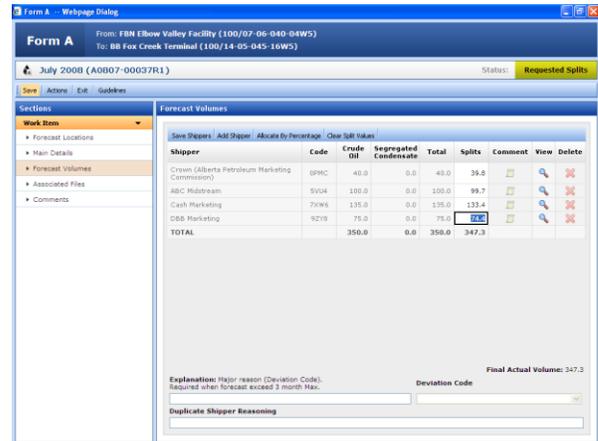

Create, Submit, Revise Form A's

Petrotranz

Petrotranz

Template Form A's
Production Operators are able to template forward Form A's, individually or by group, to ease the entry on a month-to-month basis.

## Manage Splits electronically
Production Operators are notified that the Facility has requested the submission of Shipper Splits. Production Operators are then able to enter Shipper Splits and electronically submit.

Form B's are automatically generated
When a forecast is revised, the system automatically creates Form B's reflecting the revision and submits them to all impacted Shippers.

Maintains Historical Information
Petrotranz COTS maintains a record of each event as it occurs. This provides a historical record of what has been done, when it was done, and by whom.

Web-based and Secure
Petrotranz COTS is a secure, web-based solution that only requires Microsoft Internet Explorer.
